

Rainbo Graphix CATALOGS . . .

R
"The Catalog People"
G

Catalogs give your potential buyer the advantage of being able to review your products over and over, unlike at trade shows where there are distractions and lots of competition.

This "silent sales rep", when well designed, should showcase your product line to it's best advantage and also serve as a guide for reordering. A perfect "leave behind" when visiting clients and a welcome piece when mailed. PLUS a version of the catalog is easily loaded on your website for instant reference.

The Details . . .

Our catalogs are usually printed on 100# gloss book wt. and each are aqueous coated for protection. While we list the standard 8.5 x 11 increments, custom sizes are available. Creative charges are estimated and charged at our hourly rate. If supplying print ready files, please contact us by phone for technical details. Any file intervention, i.e. bringing files up to correct technical requirements is charged at our normal hourly rate.

Professional photography greatly enhances your product presentation and is available on premises.

PRICING . . .

Size	<u>1000</u>	<u>2500</u>	<u>5000</u>	<u>10,000</u>
